

# iMobile – Dashboard Overview

Unlock shared device using 4 digits (3693)

MH-CURE APP – Sign in with ¾ ID and Network password

1. Status – Will indicate if you are Available by displaying as green or Busy as orange and gray if not logged in to iMobile. To customize, swipe “Customize” toggle > text custom message or use a Recent message or a Quick Pick option.
2. Assigned Units – Will indicate which units you are assigned to within the facility. To choose units click on Assigned Units > click “Edit” right corner > list of units will show> choose desired units(s) > check mark will appear next to each unite selected > click “Done.” Return to dashboard from the Navigation bar on the bottom.
3. Dynamic Roles – Temporary for the purpose of identification such as “Security 1 McDowell.” To select a dynamic role click Dynamic Roles > List of Roles will appear > click on desired role > choose appropriate role by swiping on toggle > hit “Confirm.”
4. Broadcasts – Used to send a predetermined group of people a text message. To send broadcast click Broadcasts > select which type of broadcast (Quick or Group) > 1. If you select Quick it is a can text that will go to a predetermined group; 2. If Group is selected you will write a message to a predetermined group. Recent – can view sent or received broadcast.
5. Patient – Allows you to view assigned patients, units, or browse any patient at the facility.
6. Texts – Allows you to text a single individual or create a group text message. Click text > click pencil & paper icon in right corner > select individual (s) to message > click on “Continue” in right corner > write message n text box > hit send.
7. Contacts – In Facility Directory of users and commonly used numbers. Click on Contacts > can browse by “My Unit,” “Any Unit,” “Hospital,” “Dynamic Roles,” or “Favorites.” “Favorites” must be saved by user for there to be a list.
8. Alerts – Notifications that are sent to Dynamic Roles from Cerner.
